Notes: Prices are indicative nightly rates in AUD and vary by date, room type and availability. Google ratings are current approximate ratings checked in August 2026 and may change over time. Travel times are approximate and depend on traffic and public transport conditions. Veriu Randwick and Avonmore on the Park Boutique Hotel (marked —*) do not have a consistent star classification across booking sites — Veriu is a 4–4.5 apartment-hotel by most listings, and Avonmore is listed as anywhere from 3.5★ to 4★ depending on source — so no single figure is shown here. Review counts and ratings for all properties were re-checked against current Google listings in August 2026.

**Airport note: A new Sydney airport — Western Sydney International (Nancy-Bird Walton) Airport, at Badgerys Creek — is scheduled to open to passenger flights on 25 October 2026. However, the large majority of arriving flights, including nearly all international and interstate services, will continue to land at the existing Sydney (Kingsford Smith) Airport (SYD), which remains the airport referenced in the "Sydney Airport" column above. Conference attendees should book flights into SYD unless an airline specifically confirms a Western Sydney (WSI) service.*
